## How to Wear It

*Whether you're the Prince of Wales or a pop princess, menswear and patterns look best with a dash of color—and a little exaggeration.*

**Find a check, mate.**

A pipe isn't the only accessory that works with houndstooth, tweed, and plaid. Unlike glitzy jewels, a matching clutch plays up the pattern.

**Blazer your own trail.**

To avoid looking too straitlaced, wear a blouse with a diving neckline under a jacket. A flash of skin adds a feminine, sexy edge and breaks up the busy pattern.

**Be colorful.**

A dash of cobalt or a slice of crimson brings out the contrast of traditional checks.
