5 \$\$\$-Saving Ideas

Alexa von Tobel, founder of personal finance site Learnvest.com, gives her tips!

1 Stick to a budget! "Figure out how much you want to spend this season and write your number at the top of a piece of paper. Keep it handy and subtract as you shop to track whether you're spending within your means."

2 Make a list! "Write down everyone you need to shop for, then assign a budget for each

person by thinking about what they might want most—is it a material gift, or would a free museum outing together be just as valued?"

3 Use reward cards! "Of course, buying in cash is always best, but credit cards that offer 1-5% cash back will help you get more from your holiday spending."

4 Save on online shipping! "Take advantage of Free Shipping Day on Dec. 16. Hundreds of Web retailers are participating, from Best Buy to Macy's."

5 Rethink the wrapping! "See what you have at home—like pretty fabric or a woven basket. Repurposed items can make gorgeous, unique presentations."
